

JURY.ONLINE

**HOW TO BE A PART OF
THE ICO USING
MYETHERWALLET**

INTRODUCTION

While the following instructions will guide you through the setup of a MyEtherWallet with tokens support, all participants should also conduct their own study on the setup and transfer process.

We make no representations or guarantees that the following material is complete or precise, or that the MyEtherWallet (or any related program or services) will be reliable or function as described. As such, participants assume all risks related with the use of MyEtherWallet (or any other ERC20 wallet) in linking with the token sale.

OBTAINING ETHER

Ether (ETH) will be the only adequate form of payment in the JOT token sale. Please make sure that you have suitable ETH available for the token sale.

You can purchase ETH with fiat currencies such as USD, Euro, etc., on any of the familiar cryptocurrency exchanges, such as:

- coinbase.com
- cex.io
- kraken.com
- poloniex.com

You can also exchange present cryptocurrencies (e.g., BTC, Zcash, Ripple) for ETH using an exchange service such as:

- shapeshift.io
- changelly.com

During the token sale occasion, please ascertain that the amount of ETH you have in your wallet is enough to cover your buy-in amount as well as the fee for transacting on the Ethereum blockchain (i.e., "gas").

Any efforts to send ETH from a different address or directly from an exchange (e.g., Coinbase, Kraken, Poloniex, etc.) during the sale will result in an incapability to acquisition JOT and your ETH may be eternally lost.

NEW ACCOUNT

STEP 1: Go to <https://www.myetherwallet.com/>

Go to the MyEtherWallet website at <https://www.myetherwallet.com>. Ensure that you are on a PC you trust and that you access the website through an HTTPS address.

MYETHERWALLET LLC

Always check the URL and look for MYETHERWALLET LLC [US] Certificate up there. Look for <https://www.myetherwallet.com/>. Be safe & secure.

Create New Wallet

Enter a password

Do NOT forget to save this!

Create New Wallet

This password *encrypts* your private key. This does not act as a seed to generate your keys. You will need this password + your private key to unlock your wallet.

[How to Create a Wallet](#) · [Getting Started](#)

Already have a wallet somewhere?

- Ledger / TREZOR / Digital Bitbox: Use your **hardware wallet**. Your device *is* your wallet.
- MetaMask Connect via your **MetaMask Extension**. So easy! Keys stay in MetaMask, not on a phishing site! Try it today.
- Jaxx / imToken Use your **Mnemonic Phrase** to access your account.
- Mist / Geth / Parity: Use your **Keystore File (UTC / JSON)** to access your account.

STEP 2: Provide a strong password

Provide a password that will be used to enter your wallet:

1. Create a strong password, using upper and lower-case letters, and also numbers and symbols (e.g., "@", "^", etc.).
2. Don't lose this password! Losing this password is equal to losing all of the ETH and JOT kept in your account. Click on the "Create New Wallet" button.

STEP 3: Save your Keystore File

Follow the directions to save your keystore file. This file holds your private and public keys and is mandatory every time you want to access your account.

MYETHERWALLET LLC

Always check the URL and look for MYETHERWALLET LLC [US] Certificate up there. Look for https://www.myetherwallet.com/. Be safe & secure.

MyEtherWallet 3.10.3.7 English Gas Price: 21 Gwei Network: ETH (MyEtherWallet)

Save your Keystore File.

Download Keystore File (UTC / JSON)

Do not lose it! It cannot be recovered if you lose it.

Do not share it! Your funds will be stolen if you use this file on a malicious/phishing site.

Make a backup! Secure it like the millions of dollars it may one day be worth.

I understand. Continue.

Not Downloading a File?

- Try using Google Chrome
- Right click & save file as.
Filename:
UTC--2017-09-20T11-

Don't open this file on your computer

- Use it to unlock your wallet via MyEtherWallet (or Mist, Geth, Parity and other wallet clients.)

Guides & FAQ

- [How to Back Up Your Keystore File](#)
- [What are these Different Formats?](#)

Please note that you won't be able to access your account without a Private Key (see below) or this file and the password from the preceding step. Losing either one of them is equal to losing all of the ETH and JOT stored in your account.

STEP 4: Backup your Private Key (optional)

If you would like to make this account available by other Ethereum wallets, you can export and backup your private key.

MYETHERWALLET LLC

Always check the URL and look for MYETHERWALLET LLC [US] Certificate up there. Look for <https://www.myetherwallet.com/>. Be safe & secure.

Guides & FAQ

- How do I save/backup my wallet?
- Preventing loss & theft of your funds.
- What are these Different Formats?

Why Should I?

- To have a secondary backup.
- In case you ever forget your password.
- Cold Storage

ProTip: Click print and save this as a PDF, even if you do not own a printer!

It is vital to recall that you should never share your private keys with someone else. If your wallet address (i.e., your public key) is the equal of your bank account number, then your private wallet key is your PIN. If anyone finds your private key, they will have access to all of your capitals.

STEP 5: Unlock your Wallet to view your Private Address and to make a transaction

Click on "View Wallet Info" or "Send Ether & Tokens" button and select the Login option that fits you best. In case of a Private Key option, type in your Private Key and click "Unlock" button.

The screenshot shows the MyEtherWallet interface. At the top, there is a navigation bar with the MyEtherWallet logo, version 3.10.3.7, language set to English, gas price of 21 Gwei, and network set to ETH (MyEtherWallet). Below the navigation bar, there are several menu items: New Wallet, Send Ether & Tokens (which is highlighted), Swap, Send Offline, Contracts, ENS, Check TX Status, View Wallet Info, and Help. The main content area is titled "Send Ether & Tokens" and contains a form with the heading "How would you like to access your wallet?". There are seven radio button options: Metamask / Mist, Ledger Wallet, TREZOR, Digital Bitbox, Keystore File (UTC / JSON), Mnemonic Phrase, and Private Key (which is selected). Below the Private Key option, it says "Parity Phrase: No longer supported". To the right of the radio buttons is a section titled "Paste/Type Your Private Key" with a text input field containing the placeholder text "Private Key".

MyEtherWallet.com does not hold your keys for you. We cannot access accounts, recover keys, reset passwords, nor reverse transactions. Protect your keys & always check that you are on correct URL.

**Greetings! You are now ready to buy JOT tokens!
Sending ETH to the Token Sale Address and Buying JOT**

BUYING JOT

STEP 1: Go to <https://www.myetherwallet.com/>

Go to the MyEtherWallet website at <https://www.myetherwallet.com>. Make sure that you are on a computer you trust and that you enter the website via an HTTPS address. If you're using Google Chrome browser, you should see a green lock notification in the address bar.

MYETHERWALLET LLC

Always check the URL and look for MYETHERWALLET LLC [US] Certificate up there. Look for <https://www.myetherwallet.com/>. Be safe & secure.

Send Ether & Tokens

How would you like to access your wallet?

- Metamask / Mist
- Ledger Wallet
- TREZOR
- Digital Bitbox
- Keystore File (UTC / JSON)
- Mnemonic Phrase
- Private Key

Parity Phrase: No longer supported

Paste/Type Your Private Key

MyEtherWallet.com does not hold your keys for you. We cannot access accounts, recover keys, reset passwords, nor reverse transactions. Protect your keys & always check that you are on correct URL.

STEP 3: Sending ETH to buy JOT tokens

Once you enter your wallet you will be asked to fill the “Send Transaction” form.

- In the “To Address” field, paste the sale address copied directly from jury.online's official website only (<https://jury.online/>).
- In the “Amount to Send” field, plug in the amount of ETH you wish to use to buy JOT tokens (if you are transferring all ETH from your wallet, make sure this amount is slightly lower than the total amount to guarantee that the cost of the transaction can be covered)

- In the "Gas Limit" field, change the minimum amount to 200,000 gas. This will ensure that your transaction is processed.
- Click on "Generate Transaction."

MYETHERWALLET LLC
