6. RISKS

6.1 You understand that Digital Assets, JOT, blockchain technology, Ethereum, Ether, Bitcoin and other associated and related technologies are new and untested and outside of Jury.Online's exclusive control and adverse changes in market forces or the technology, broadly construed, will excuse Jury.Online's performance under this agreement.

6.2 In addition to the above, you also acknowledge that you have been warned of the following risks, associated with the Website, the Digital Assets, the JOTs, Jury.Online Service and Protocol and other relevant technologies mentioned herein.

(a) Legal risks regarding securities regulations

There is a risk that in some jurisdictions the JOTs and other Digital Assets might be considered to be a security, or that it might be considered to be a security in the future. Jury.Online does not give warranties or guarantees that JOT tokens are not a security in all jurisdictions. Each user of JOT tokens shall bear its own legal or financial consequences of JOT tokens being considered a security in their respective jurisdiction.

Every user is bound to check if acquisition and disposal of JOT tokens is legal in its jurisdiction, and by accepting these Terms each user undertakes not to use JOT tokens should their use not be legal in the relevant jurisdiction.

Acquiring cryptographic tokens in possession and exchanging them for other cryptographic tokens will most likely continue to

be scrutinized by various regulatory bodies around the world, which has so far given mixed reactions and regulatory impact. The legal ability of Jury.Online to provide JOT tokens in some jurisdictions may be eliminated by future regulation or legal actions. In the event, it turns out with a high degree certainty that JOT tokens are not legal in certain jurisdiction, Jury.Online will either a) cease operations in that jurisdiction, or b) adjust JOT tokens in a way to comply with the regulation should that be possible and viable.

(b) **Risks associated with Ethereum**

JOT tokens are based on Ethereum. As such, any malfunction, unintended function or unexpected functioning of the Ethereum protocol may cause the JOT tokens to malfunction or function in an unexpected or unintended manner. Ether, the native unit of account of the Ethereum may itself lose value in ways similar to JOT tokens, and also other ways. More information about the Ethereum is available at <http://www.ethereum.org>

(c) **Risk of unfavourable regulatory action in one or more jurisdictions**

Blockchain technologies have been the subject of scrutiny by various regulatory bodies around the world. The functioning of the Ethereum network and associated blockchain networks and Digital Assets and JOT tokens could be impacted by one or more regulatory inquiries or actions, including but not limited to restrictions on the use or possession of digital tokens like JOT tokens, which could impede or limit their existence, permissibility of their use and possession, and their value.

(d) **Risk of theft and hacking**

Hackers or other groups or organizations may attempt to interfere with your Third-party Wallet, the Website or the availability of JOT tokens and Digital Assets in any number of ways, including without limitation denial of service attacks, Sybil attacks, spoofing, smurfing, malware attacks, or consensus-based attacks.

(e) **Risk of security weaknesses in the Website and JOT tokens source code or any associated software and/or infrastructure**

There is a risk that the Website and JOT tokens may unintentionally include weaknesses or bugs in the source code interfering with the use of or causing the loss of JOT tokens.

(f) **Risk of weaknesses or exploitable breakthroughs in the field of cryptography**

Advances in cryptography, or technical advances such as the development of quantum computers, could present risks to cryptocurrencies, Ethereum, JOT tokens, Jury.Online Service and Protocol, which could result in the theft or loss of JOT tokens.

(g) **Risk of mining attacks**

As with other decentralized cryptocurrencies, the Ethereum blockchain, which is used for the JOT tokens, is susceptible to mining attacks, including but not limited to double-spend attacks, majority mining power attacks, “*selfish-mining*” attacks, and race condition attacks. Any successful attacks present a risk to the JOT tokens, expected proper execution and sequencing of JOT tokens, and expected proper execution and sequencing of Ethereum contract computations in general. Despite the efforts of Jury.Online and Ethereum Foundation, the risk of known or novel mining attacks exists. Mining Attacks, as described above, may also target other blockchain networks, with which the JOT tokens interact with and consequently the JOT tokens may be impacted also in that way to the extent, described above.

(h) **Risk of low or no liquidity**

Even though there are currently online service available, which enable possibility of exchange of cryptographic tokens between themselves, and also, some of them enable exchange of cryptographic tokens for fiat money, there are no warranties and/or guarantees given that JOT tokens will be listed or made available for exchange for other cryptographic tokens and/or fiat money, and no guarantees are given whatsoever with the capacity (volume) of such potential exchange. It shall be explicitly cautioned, that such exchange, if any, might be subject to poorly-understood regulatory oversight, and Jury.Online does not give any warranties in regard to any exchange services providers. Users might be exposed to fraud and failure. In any case, Jury.Online will not enable exchange of JOT tokens for other cryptographic tokens or for fiat currency. User may not at any given time be able to acquire or dispose of its JOT tokens due to lack of liquidity.

(i) **Risk of loss of value**

Value of JOT tokens may fluctuate and their users might suffer loss in value of such acquired tokens. There might be different reasons that would cause unfavourable fluctuations of the value of the JOT tokens.

(j) **Risk of uninsured losses**

JOT tokens are unlike bank accounts or accounts at some other

financial institutions entirely uninsured.

(k) **Risk of malfunction in the Ethereum network or any other blockchain**

It is possible that the Ethereum network or any other network, to which the JOT tokens are interacting with, malfunctions in an unfavourable way, including but not limited to one that results in the loss of JOT tokens

(l) **Internet transmission risks**

You acknowledge that there are risks associated with using the JOT tokens including, but not limited to, the failure of hardware, software, and Internet connections. You acknowledge that Jury.Online shall not be responsible for any communication failures, disruptions, errors, distortions or delays you may experience when using the Website and JOT tokens, howsoever caused.

(m) **Unanticipated risks**

Cryptocurrencies and blockchains are new and untested technology. In addition to the risks set forth here, there are risks that Jury.Online cannot foresee and it is unreasonable to believe that such risks could have been foreseeable. Risks may further materialize as unanticipated.

(n) **Insufficient interest in Jury.Online Service, Protocol and JOT tokens**

It is possible that JOT or Jury.Online Service and Protocol will not be used by a large number of individuals, businesses and other organisations and that there will be limited public interest in the creation and development of its functionalities. Such a lack of interest could impact the development of Jury.Online Service or Protocol.

(o) **JOT, as developed, may not meet your expectations**

Jury.Online Service and Protocol is currently under development and may undergo significant changes before release. Your expectations regarding the form and functionality of the Jury.Online Service and Protocol and JOT tokens may not be met upon release of new Website, deployment of Jury.Online Service and Protocol, additional products and services for any number of reasons, including a change in the design and implementation plans and execution of the implementation of JOT.

(p) **Jury.Online Service and Protocol may never be completed or released**

Jury.Online Service and Protocol (the Project), described in section 3, may never be released and operational, even though Jury.Online will make reasonable efforts to complete and deploy it.

- 6.3 The JOT tokens are provided “*as is*”. We and our affiliates and licensors make no representations or warranties of any kind, whether express, implied, statutory or otherwise regarding the JOT tokens, including any warranty that the JOT tokens will be uninterrupted, error free or free of harmful components, secure or not otherwise lost or damaged. Except to the extent prohibited by law, we and our affiliates and licensors disclaim all warranties, including any implied warranties of merchantability, satisfactory quality, fitness for a particular purpose, non-infringement, or quiet enjoyment, and any warranties arising out of any course of dealing or usage of trade.

7. ELIGIBILITY

- 7.3 Jury.Online reserves its right to decide in its own discretion to adopt reasonable organisational and technical measures to assure that the Website and JOT tokens are not available to persons from paragraph 7.1. Due to the JOT tokens being offered on the Internet (meaning both the world-wide web and the Ethereum blockchain) Jury.Online and users understand that there is a possibility that there might be a certain “*flow back*” of JOT tokens to natural and legal persons with their habitual residence or seat of incorporation located in the Restricted Areas. Jury.Online consequently explicitly prohibits persons from paragraph 7.1. from using the JOT tokens. Jury.Online shall not be held liable for any legal or monetary consequence arising of such use. Such persons using JOT tokens despite the prohibition shall on first request indemnify and hold harmless Jury.Online from any legal or monetary consequence arising of their breach of the terms as described in this paragraph 7.3. Any person, matching the criteria from paragraph 7.1., shall immediately

stop using JOT tokens and leave the Website.
